

# HALRIC Logo guidelines

## Use of logos when presenting about the project

1. The Interreg and HALRIC logo must always be included in material produced in the framework of the project.
2. The EU-flag must be min. 1 cm high and the height of the HALRIC (and other logos) must not be higher than the total height of the EU-flag. [View guidelines](#)
3. The logos can either be in full colour or in the white versions.
4. On a website, make sure the Interreg ÖKS logo is visible without scrolling or extra clicking (i.e. on halric.eu), so visitors easily see the EU / ÖKS support.
5. On a presentation, add at least on the first and last slides the two logos if you are presenting HALRIC.
